

COVID-19: Energy Assistance

Post copy:

Funding is currently available to help income qualified households pay their electric bills; this includes those customers whose employment has been impacted by COVID-19. In Wisconsin, Energy Assistance eligibility requirements have been adjusted so customers affected by COVID-19 can get the help they need quickly. For more information, visit our website or reach out directly to our local Energy Assistance Program Provider West CAP at (800) 606-9227.
